

QUALITY POLICY

Obligations

Aussie Automotive Group (AAG) is a world leader in the delivery of specialised automotive products and services for its customers.

AAG is committed to ensuring high quality products and services are delivered, while monitoring and measuring customer satisfaction.

To ensure quality is maintained and continually improved, AAG operates an integrated management system in compliance with international standards ISO 9001. The Quality Management System covers all business activities, from initial inception, design, manufacturing and final delivery of products to the end user.

The training of AAG management and employees is fundamental to the success of its quality program. In addition, AAG will continue to liaise closely with its subcontractors and suppliers to ensure that they provide similar attention to quality principles.

We will:

- Comply with all applicable legislation, Codes of Practice and standards.
- Provide superior solutions and products to our customers.
- Communicate this system within the company and where relevant to our customers.
- Continually review this system to improve our effectiveness.
- Involve our employees and key trading partners in the continual development process.
- Establish objectives by which effectiveness and improvements may be measured.
- Establish feedback systems to measure the performance of AAG.
- Learn from both the positive and negative outcomes of this measurement process, making improvements where appropriate.
- Develop our internal resources and capability and work with our key trading partners to develop theirs.
- Take due care to ensure that activities are safe for employees, associates and sub-contractors.
